

# Baker to Vegas

## General Information

Mobile Relay Associates (MRA) will have two locations along the race course to provide you with assistance with the radios during the race. We will be in LV Saturday morning to assist anyone with problems. Call us on the cell phone numbers below.

If you need a charged battery for your radio, we will exchange a charged battery for your depleted battery on a 1 on 1 basis. We will not hand out extra batteries to anyone. NO EXCEPTIONS! Only exchanges will be done. Exchanges will be made for anyone using our digital radios, regardless of whether you rented the radios from MRA, Rebel Communications or Omni Communications.

If you need assistance with operating the radio or have any issue with the radio, the person at the charge station will provide whatever assistance that they can to help resolve your situation.

**Station #1** will be located on the race course Hwy 127 at the start line parking lot.

**Station #2** will be located on Hwy 160 (the race course) in Pahrump, Nevada. The location will be on the right side of the race course about 600' after turning right on Hwy 160 from Hwy 372 about 2 miles past stage 11. The help station will be across the street from the Holiday Inn which is on the left side of the road.

There will be signs posted directing you to the battery charge locations before you reach the station along with a banner indicating "Batteries & Radios" at the assistance tent.

**Radios are to be returned to booth 26 (next to LAPFCU booth 28) at the rear of the award show room starting at 1PM until the end of the show. We plan to be packed up and gone by 8:30PM, subject to change depending upon circumstances.**

If you need emergency assistance or need questions answered, please call Mark Abrams at 310-261-2702 or David at 562-254-1154. They will be available all day Saturday from 7AM until about midnight if in cell range. After midnight, we may be asleep.
