Repeater Transceivers

800 & 900 MHz

Kenwood 800 & 900 MHz repeaters provide fully synthesized operation, design flexibility and proven RF performance. TKR series products are 100% duty cycle repeaters for use as TX/RX units in a trunking repeater system. The TKR-900 and TKR-901 units are configured for rack mounting in standard 19" racks or in locking cabinets.

- **Compact size saves space and fits in an EIA - standard 19" rack for easy installation and service**
- **Setting channels is easy with PLL-synthesized repeater – just dial in the FCC channel number – no external oscillator required**
- **Built with the utmost emphasis on quality, these high performance units meet 100% duty cycle requirements**
